

BE THE MOON FOR YOU

Written by D. Higgins

Life will carry you along it's winding way
It may take your heart and not repay
But when I see you standing out in the rain
Just for you, believe I would

Chorus

**I'd be a fighter when you're down
Take a bullet to the side
Higher off the ground
I will carry you
I'll be a smile on your face
And a shelter in the rain
I'll pray you find your way
No I won't just catch the moon
I'll be the moon for you**

They may let you down and try to crush your bones
But the spirit of an angel can't be broke
If you ever think you're down and out of time
Just so you know, read these words

Chorus

For you, for you, for you

Bridge

When you're needing time and space
Remember every star has its place
